# TARGWALL
PVC SPECIALISTS
# Installation instructions

1

Unclip and place the back of the finishing trim against the wall. (trim not included in the box)

2

- Place the double sided tape strips on the panels.
- The apply a small amount silcon to back of the panel for a secure fix avoiding getting it too close to the edge.

3

"CLICK"

Peel & Stick and install on the wall.

Finish by clipping the front of the trim.
